Exclusive Powder Coating Process

DSI is an industry leader in Powder Coated Aluminum Products. State-of-the-art technology is used to provide a high-quality and durable finish that is more resistant to the effects of impacts, chemicals, ultra-violet light, moisture, and extreme weather conditions.

The process begins with a system certified by the Powder Coating Institute (PCI) and continues with the American Architectural Manufacturers Association (AAMA) / Fenestration and Glazing Industry Alliance (FGIA) verifying our Powder Coating. These stringent processes provide homeowners with peace of mind in their investment.

Our Aluminum Lifetime Limited Warranty includes a Fade Warranty as well as a Salt and Abrasive Environments Warranty providing one of the best warranties in the industry.

1 The raw premium-grade aluminum is inspected to be free of blemishes and is not exposed to the outdoor elements.

2 The product enters a heated acidic cleaning stage to remove extrusion debris and fabrication oils.

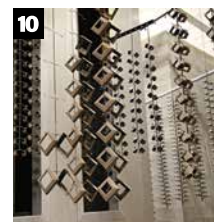

3-6 **Clean:** City water rinse
Cleaner: Recycling reverse osmosis water rinse
Cleanest: Pure reverse osmosis water rinse
Sealer: Dried-in-place aluminum sealer

7-8 A 200 MPH air blast removes water drops from the pre-treated aluminum. A convection oven completes the dry-off process.

9 Powder is applied with 18 automated and 2 manual spray guns. Compressed process air is dried to -35°F Dew Point for superior adhesion.

10 The powder coating is then bonded and adhered to the aluminum substrate in a 400 degree cure stage.

BELLA CAVOTM

CABLE RAILING

BELLA CAVO™

CABLE RAILING

The Bella Cavo C90 one-rail system is a contemporary horizontal cable railing designed to bring sleek style and functionality to any outdoor space. Featuring a sturdy top rail and 316L marine-grade stainless steel cables, this minimalist system offers an unobstructed view and a modern aesthetic, perfect for enhancing decks and balconies.

BELLA CAVO (C90)

6' x 42" T Section Shown

Product Details

Models	Section Type	Straight Section Lengths	Infill	Stair Section Lengths	Heights	Kits Include	Cables per Section

BELLA CAVO™

POSTS

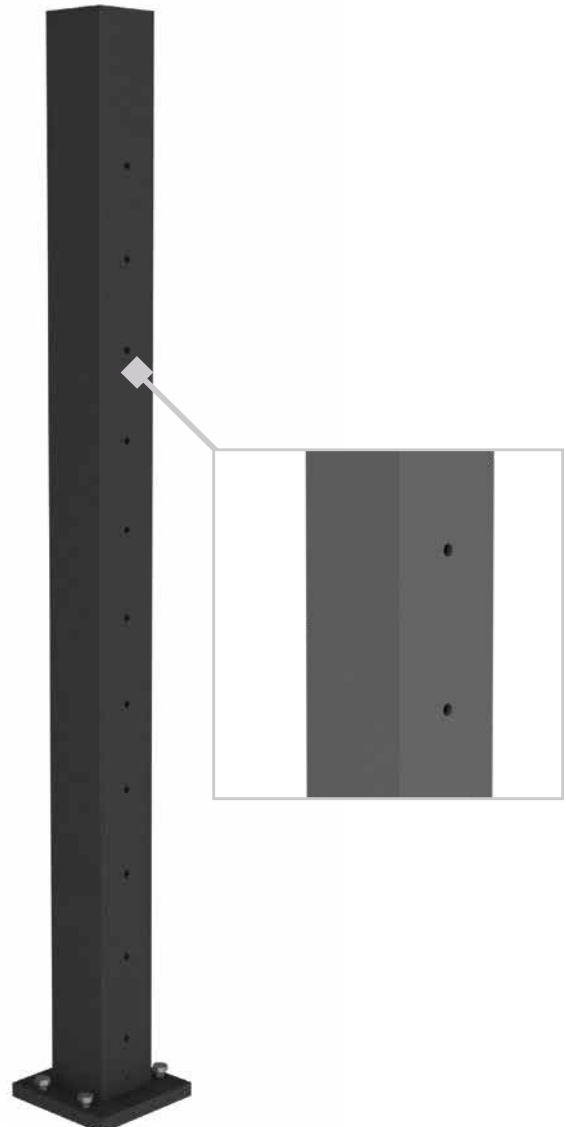

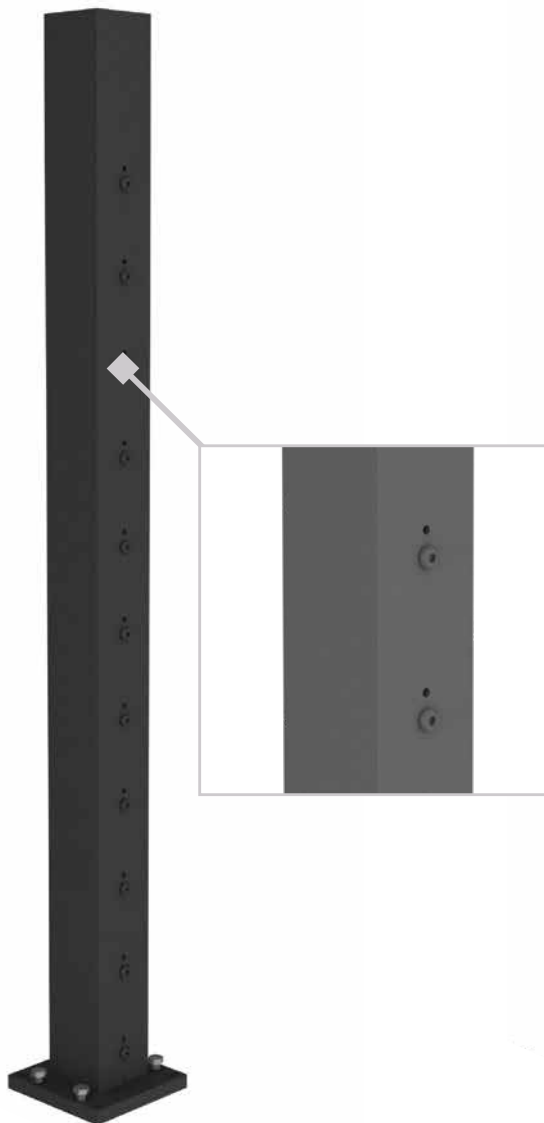

The Bella Cavo Horizontal Cable Railing system offers two types of posts to ensure a clean and streamlined installation: Tension Posts and Non-Tension Posts (also referred to as Through Posts).

Tension Post

Tension Posts, designed for the start or end of a cable run, come equipped with built-in tension mechanisms for ease of installation and a secure fit. Available as corner and end posts, these posts are essential for maintaining proper cable tension.

Non Tension Post

Non-Tension Posts provide critical mid-section support, allowing the cable to pass through seamlessly. These are offered as line and corner posts, ensuring flexibility in design while maintaining the modern aesthetic and durability Bella Cavo is known for.

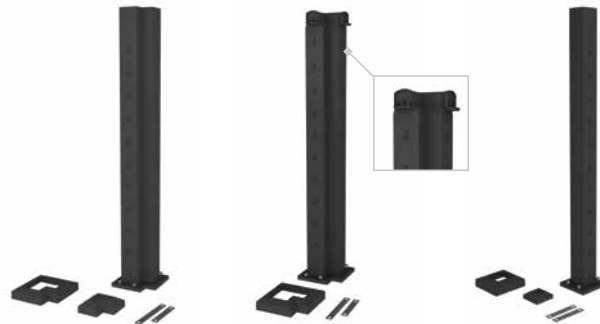

Tension Post Kits

Post Kits include:

- Post
- Flat Cap*
- 2-piece Post Flair

*Caps are not included with Crossover Post Kits.

	2-1/2" x 4" Corner Post (.125" wall)	2-1/2" x 4" Crossover Corner Post (.125" wall)	2-1/2" End Post (.125" wall)
